Den Adapter anschließen:

1. Remove the radio.
2. Insert the plug of the Bluetooth adapter WM-BTMIC18 from the backside of the Quadlock plug into chamber B until it clicks into place. This should also work if the quadlock plug is still on the radio. If the cables are too short or if you can't see the back of the connectors, you can completely disconnect the Quadlock connector from the radio beforehand.

3. Now connect the black ground cable of the WM-BTMIC18 either to the radio housing or to the ground line leading to the radio. Without a good ground connection the function of the adapter is not given.
4. The red cable in your vehicle must be connected to the switched plus (terminal 15, ignition plus).
5. The microphone near the driver in the vehicle (steering wheel fairing, dashboard, etc.). The cable is then routed to the Bluetooth adapter and connected to the microphone input. **Avoid placing the microphone in the immediate vicinity of or on airbags.**
6. Establish a Bluetooth connection by enabling Bluetooth pairing and searching for the Bluetooth device ``WM``. You should then set the volume on the connected device to full volume.
7. Before reinstalling the radio, test the function of the adapter. Switch on the AUX function with the CD changer button.
