

Quick Start Guide Bluetooth Music Receiver WM-BTMIC23

Compatible with the following models:

- **BMW:** All models, i.a. E46, E39, etc. from year of construction 09/2002 to 2005
- **In conjunction with special equipment SA 661 & SA 650**
 - **Business CD Radio**
 - **Professional CD Radio**

Connect the adapter:

1. For safety reasons and to avoid short circuits, disconnect the vehicle battery during all work on the vehicle electrical system.
2. Remove the radio.
3. Insert the plug of the WM-BTMIC23 into the slot provided.

4. Now connect the black ground cable of the WM-BTMIC23 either to the radio housing or to the earth lead leading to the radio. Without a good ground connection, the function of the adapter is not given.
5. You must connect the red cable in your vehicle with switched positive (terminal 15, ignition plus).
6. Position the microphone near the driver in the vehicle (steering wheel trim, instrument panel, etc.). The cable is then routed to the Bluetooth adapter and connected to the microphone input. **Avoid placing the microphone in the immediate vicinity of or on airbags**
7. Establish a Bluetooth connection by activating Bluetooth pairing and searching for the ``WM`` Bluetooth device. You should then set the volume to full volume on the connected device.
8. Before reinstalling the radio, test the function of the adapter. Switch on the AUX function with the CD changer button.
